Surplus Property

Managing the disposal of state and federal property through equitable redistribution to eligible customers or public sale to maximize transparency and asset value.

SURPLUS PROPERTY

The primary mission of the DOAS Surplus Property division is the identification, redistribution, and disposal of state personal property (not real estate) to state and local governments, eligible non-profits, and the public. The division also serves as the State Agency for Surplus Property (SASP) for the Federal property disposal programs.

Reusing surplus property rather than buying new, saves tax dollars by extending the life of property.
